

Summerfield HOA #5
Landscaping Report
July 2023

We are mid-summer which presents Landscaping challenges. Please see Annual Report for further details.

Please pitch in. We are looking for your help in keeping our HOA property maintained. That may mean to pull a weed here and there, give your grass or plants an extra watering, clip a few stray branches and keeping moss off sidewalks and walk ways.

We are currently monitoring irrigation issues, making repairs as needed, and assessing where to add sprinkler heads to areas not adequately covered.

The lawns are scheduled to be fertilized this summer. Growing clover (a weed) is being addressed.

If you have a concern or issue please complete a Landscape Request Form and submit to my mailbox.

Respectfully submitted,
Ellen Brown, VP Landscaping
